Executive Director – Earl F. Sutton JR.

June 30, 2022

To the Board of Commissioners  
Little Egg Harbor Municipal Utilities Authority

The Annual Comprehensive Financial Report (ACFR) of the Little Egg Harbor Municipal Utilities Authority (Authority) for the year ended June 30, 2021, is submitted herewith. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation including all disclosures, rests with the management of the Authority. I believe that the data presented is accurate in all material respects; that the report is presented in a manner designed to fairly set forth the results of operations of the Authority as measured by the financial activity of its funds; that the report fairly presents the net position of the Authority for the year then ended; and that all disclosures necessary to enable the reader to gain a maximum understanding of the Authority's financial activities have been included.

This ACFR is presented in four main sections:

1. **Introductory Section** provides information on the contents of the report; this transmittal letter and the Authority's organizational structure.
2. **Financial Section** includes the auditor's opinion on the financial statements and supplementary information, management discussion and analysis, basic financial statements and other supplementary information.
3. **Single Audit Section** includes the auditor's opinion on internal control over financial reporting and on compliance and other matters and the opinion on compliance with requirements applicable to major state programs and internal control over compliance, the schedule of expenditures of state financial assistance, notes to the schedule and the schedule of findings and questioned costs.
4. **Statistical Section** includes selected economic and demographic information, financial trends, and the fiscal capacity of the Authority, generally presented on a multi-year basis.

#### **Profile of the Government**

The Little Egg Harbor Municipal Utilities Authority (the "Authority") was created by the Township of Little Egg Harbor (the "Township") by ordinance 72-2 on January 17, 1972, under Chapter 183 of P.L. 1957 of the State of New Jersey. The Township Committee and the Authority entered into a Service Contract by ordinance and resolution, respectively, on October 19, 1976. The Authority's service area is co-terminus with the Township. A potable water supply and distribution system and a wastewater collection system are both owned and operated by the Authority.

### **Organization and Structure**

The Authority consists of (5) five-regular and (2) two-alternate Commissioners who are appointed by the Township Committee to staggered terms of five years.

The Chairperson, or in his or her absence, the Vice-Chairperson presides over the meetings. The Secretary is responsible for the execution, witnessing and certification of various Authority documents. (See Appendix A for current list of Commissioners.)

The Authority Commissioners are responsible for setting the policy of the Authority. The Commissioners also appoint an Executive Director who acts as Chief Administrator to carry out the rules and policies enacted by the Commissioners. The Executive Director is responsible for the day-to-day affairs of the Authority and is responsible to the Commissioners for administering the policies established by them. (See Appendix B for current list of Management.)

The Commissioners are also responsible for annually appointing an Authority attorney, auditor and engineer, along with any other special counsels or consultants as deemed appropriate and necessary. These professionals report both to the Commissioners and the Executive Director. (See Appendix C for current list of Consultants.)

Within the Authority, there are two divisions, the Administrative Division and the Operations Division. The Administrative Division is responsible for the preparation of all necessary Authority paperwork and documents, along with the day-to-day finances of the Authority and its purchasing. Within the administrative division an Administrative Assistant is also responsible for attending the Authority's meetings and recording the minutes. Also, there is an Executive Secretary responsible for the preparation of Authority documents as they pertain to the processing and payment of bills, payroll and the receipt of monies due the Authority and proper disposition. These individuals report directly to the Executive Director.

The operations division is responsible for the day-to-day operation and maintenance of the physical plant. The operations division is headed by the Superintendent, who reports directly to the Executive Director. (Please refer to Appendix D Little Egg Harbor Municipal Utilities Authority's Organization Chart.)

### **Local Economy**

The Authority's service area, the southern most part of Ocean County, is bordered on the east by Little Egg Harbor and Great Bays, on the south by Atlantic County, on the west by Burlington County and on the northeast by Stafford and Eagleswood Townships. Over the past 70 years, Ocean County was the fastest growing county in the state.

Ocean County is located in the Atlantic Coastal Plain in Central New Jersey. The County's total land area is 638.10 square miles, of which Little Egg Harbor occupies 47.4 square miles making it the fourth largest community in the County in terms of area. Table 1 provides a comparison of the annual population estimates for the years 2005, 2010 and 2015 and indicates that based on 2015 estimates, Little Egg Harbor ranked tenth in population out of the County's 33 municipalities.

Located amid the natural beauty of Great Bay, just 30 miles north of Atlantic City and a convenient fifteen-minute drive to the famous Jersey Shore beaches of Long Beach Island, the Township of Little Egg Harbor truly is a "Little Treasure by the Bay."

Upon your arrival you will quickly note that our community is growing by leaps and bounds. But Little Egg Harbor Township continues to boast about its respected school district, recreational opportunities for all ages, convenience to Atlantic City, Philadelphia and New York City, and a positive vision for the future.

**Table 1: Population, 2010, 2015 and 2020**

County of Ocean	577,564	587,091	614,237
Township of Little Egg Harbor	20,115	20,565	20,784

With a 19.3% increase in the number of working County residents from 2000 to 2018, the Township is hosting an increasing number of jobs. The Township hosted 2.7% of the in county jobs in 2000 and 3.4% of those jobs in 2018.

## Financial Information

### **Internal Controls**

In developing and evaluating the Authority's accounting system, an important consideration is the overall adequacy of internal controls. Internal controls are designed to provide Authority management with reasonable (but not absolute) assurance regarding (a) the safeguarding of assets against loss from unauthorized use or disposition; and (b) the overall reliability of the financial records for preparing financial statements and for maintaining accountability and control over the Authority's assets.

The concept of reasonable assurance recognizes that (1) the cost of control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

### **Financial Information (Continued)**

#### **Budgetary Control**

Annually, appropriations are established by the Board of Commissioners to record the current year's fiscal requirements of the Authority. Portions of these appropriations are encumbered as purchase orders and/or contracts are awarded. No commitment is authorized, nor any expenditure incurred, until it is determined that adequate appropriation balances exist for that purpose. To facilitate this determination, the Authority accounting records are delineated by function and specific activity.

#### **Financial Operating Results**

The management discussion and analysis that follows, summarizes and reviews the changes of the Authority's financial operations.

#### **Cash and Investment Administration**

The Authority's investment policy is to minimize risks while maintaining a competitive yield on its portfolio. During 2021, the Authority continues to invest in the same type of investments as in prior years. All investments are made in accordance with permitted investment vehicles as determined by the State of New Jersey.

#### **Risk Management**

The Authority continues to look to the New Jersey Utilities Authority Joint Insurance Fund (NJUAJIF), for its property and casualty insurance coverage. This fund has provided comprehensive and reliable coverage for many years. The relationship has also resulted in thousands of dollars in cost savings on premiums, plus many annual dividends being paid to the Authority.

The NJUAIJIF also covers the Employment Practices Liability (EPL), Public Officials Liability (POL) and New Jersey Environmental Joint Insurance Fund (NJEJIF).

A comprehensive listing of the Insurance Coverage can be found on file in the Authority's offices.

#### **Other Information**

##### **Independent Audit**

The Authority is required to have an annual audit of the books of account, financial records and transactions conducted by independent certified public accountants selected by the Board of Commissioners. This requirement has been complied with. The independent auditor's report on the 2021 financial statements of the Authority has been included in the financial section of this report.

## **INDEPENDENT AUDITOR'S REPORT**

Members of the Board of Commissioners  
Little Egg Harbor Municipal Utilities Authority  
823 Radio Road  
Little Egg Harbor, New Jersey 08087

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the Little Egg Harbor Municipal Utilities Authority, as of and for the years ended June 30, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements of the State of New Jersey OMB Circular 15-08 "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid" and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

## SUPLEE, CLOONEY & COMPANY

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective net position of the Little Egg Harbor Municipal Utilities Authority at June 30, 2021 and 2020, and the changes in net position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedules related to accounting and reporting for pensions in Schedules R-1 through R-3 and the schedules related to accounting and reporting for postemployment benefits other than pensions in Schedules S-1 through S-3 identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Little Egg Harbor Municipal Utilities Authority's basic financial statements. The supplementary information and data and the schedule of expenditures of state financial assistance as required by New Jersey OMB 15-08 as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information and data and the schedule of expenditures of state financial assistance as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and data are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

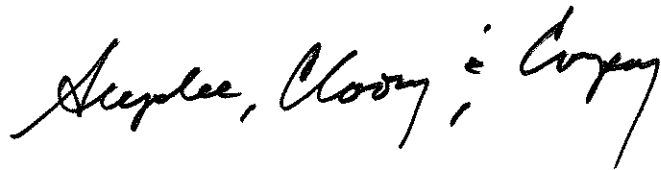

The introductory section has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

## SUPLEE, CLOONEY & COMPANY

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2022 on our consideration of the Little Egg Harbor Municipal Utilities Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Little Egg Harbor Municipal Utilities Authority's internal control over financial reporting and compliance.

## **MANAGEMENT DISCUSSION AND ANALYSIS**

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis is designed to provide an analysis of the Authority's financial condition and operating results and to also inform the reader on Authority financial issues and activities.

The Management's Discussion and Analysis (MD&A) should be read in conjunction with the Transmittal Letter (beginning on page 1) and the Authority's basic financial statements.

### USING THIS ANNUAL REPORT

The financial statements included in this annual report are those of a special-purpose government engaged only in a business-type activity. As enterprise funds, the Authority's basic financial statements include:

- **Statements of Net Position** – reports the Authority's current financial resources (short-term spendable resources) with capital assets and long-term obligations.
- **Statements of Revenues, Expenses and Changes in Net Position** – reports the Authority's operating and non-operating revenues, by major source along with operating and non-operating expenses and capital contributions.
- **Statements of Cash Flows** – reports the Authority's cash flows from operating and non-operating activities, capital and related financing activities and investing activities.

The base water rate increased from 2019 to 2020 and from 2020 to 2021 by approximately 5.7% and 10.7% respectively. The excess water rate was held flat from 2019 to 2021 at \$5 per 1,000 gallons in excess of 15,000 gallons per quarter. The base sewer rate increased from 2019 to 2020 and from 2020 to 2021 by approximately 3% each year. The excess sewer rate for commercial customers remained unchanged for 2019, 2020 and 2021 at \$6 per 1,000 gallons in excess of 15,000 gallons per quarter. The water customer base expanded by approximately two tenths of 1% over the three-year period. The sewer customer base expanded in a similar way over the three-year period. Consumption and flows, the new rate structures put in place, a \$100.00 increase in water connection fees per year and an average \$75.00 increase in sewer connection fees per year and variations in other operating revenues appear to be the driving force behind the changes in operating revenues. Service fee revenue increased an average of 4.20% from 2019 to 2021. Connection fees and other operating revenues averaged \$102,570 for the three-year period, a decrease of approximately 16.6% from 2019 to 2021. This connection fee downward trend is expected to continue as is evidenced by the average decrease in the years from 2019 to 2021. Non-operating revenues decreased from 2019 to 2021 but this was mainly due to the receipt FEMA monies from an outstanding project

worksheet that was closed out during the 2019 cycle. While investment interest has been relatively low over the three-year period, it began to increase in 2019 and 2020 and decreased in 2021 due to declining market conditions and the amounts of cash invested in each year. Other non-operating revenues decreased significantly from 2019 to 2021 mostly due to the one time receipt of the FEMA monies in 2019.

## REVIEW OF EXPENDITURES

Years Ended June 30,	<u>2021</u>	<u>2020</u>	<u>2019</u>
Operating Expenses:			
Administration	\$ 1,871,294.00	\$ 1,771,494.00	\$ 1,753,057.00

Total Operating Expenses	<u>8,385,347.00</u>	<u>7,798,130.00</u>	<u>7,160,564.00</u>
Non-Operating Expenses:			
Total Interest Payments on Bonds	<u>127,577.00</u>	<u>68,069.00</u>	<u>79,601.00</u>
Total Expenses	<u>\$ 8,512,924.00</u>	<u>\$ 7,866,199.00</u>	<u>\$ 7,282,058.00</u>

Administrative expenses increased approximately 1.1% from 2019 to 2020 and then increased by about 5.6% from 2020 to 2021. Overall, administration is up by about 6.7% over the three year period due to a variety of factors including, but not limited to changes in the administrative salary structure and an overall increase in other expenses. Cost of providing service increased by about 4.3% over the three-year period also due to a variety of factors. Increases in amounts expended for light, power and gas from 2020 to 2021 combined with changes in sewerage disposal costs were the major contributing factors for 2019 to 2021.

The primary factor in the fluctuation of non-operating expenses over the three-year period is an increase in interest payments on the Authority's bonded indebtedness as a result of the closing on two new Environmental Infrastructure Trust/Fund Loans in 2019-21.

# LITTLE EGG HARBOR MUNICIPAL UTILITIES AUTHORITY

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2021

### (1) REPORTING ENTITY

The Authority, a public body corporate and politic of the Township of Little Egg Harbor, County of Ocean, State of New Jersey was organized and exists under the Municipal and County Utilities Authorities Law, constituting Chapter 183 of the Pamphlet Laws of 1957 of the State of New Jersey and the acts amendatory and supplementary thereto. The Authority was created by ordinance 72-2 of the Township of Little Egg Harbor on January 17, 1972. The Authority members are appointed by the Township Committee for terms of five years.

GASB Statement 14 established criteria to be used to determine which component units should be included in the financial statements of the oversight entity. In accordance with this statement the Authority is a component unit of the Township and should be reported in the financial statements of the Township. However, the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs ("DCA"), State of New Jersey requires that the financial statements of the Authority and Township be reported separately.

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Authority have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the accounting policies are described below.

#### Cash Equivalents

Cash equivalents are stated at cost which approximates market. The Authority considers investments with maturities of three months or less to be cash equivalents.

#### Inventory

Inventory of spare parts and supplies is recorded as an expense when purchased and accordingly, is not included in the statements of net position.

#### Compensated Absences

Vacation and sick pay accrue to the benefit of employees on a calendar year basis. Employees are not permitted to accumulate vacation and sick pay beyond calendar year end. Because the Authority prepares its financial statements on a fiscal year basis, an accrued liability of \$163,313 existed as of June 30, 2021. Accordingly, the Statement of Net Position as of June 30, 2021 reflects an accrued liability of the aforementioned amount.

JUNE 30, 2021

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounts Receivable

The Authority's billing practices include billing its customers based upon meter readings. Quarterly billings are made for water and sewer in accordance with the approved rate schedule in effect for the period under audit. All water customers are billed quarterly at a base rate of \$62.00 for the first 15,000 gallons of water and an additional \$5.00 for each 1,000 gallons in excess of 15,000 gallons. All sewer customers are billed quarterly at a rate of \$104.00. Further, commercial sewer customers are billed an additional \$6.00 for each 1,000 gallons in excess of 15,000 gallons. An allowance for doubtful accounts has not been established; past due amounts are submitted to the Township for inclusion in their Annual Tax Sale.

Basis of Accounting

The financial statements of the Authority have been prepared on the accrual basis and in accordance with generally accepted accounting principles applicable to enterprise funds of state and local governments. An Enterprise Fund is used to account for operations: (i) that are financed primarily through user charges, or (ii) where the governing body has decided that determination of net income is appropriate.

The accounting and financial reporting applied by the Authority is determined by its measurement focus. The financial statements are reported using the economic measurement focus and the accrual basis of accounting. The transactions of the Authority are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included in the Statements of Net Position. Net Position (totals assets and deferred outflows net of total liabilities and deferred inflows) are segregated into invested in capital assets, restricted and unrestricted components.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Restricted Assets

In accordance with the 1977 Bond Resolution, and the 1977, 1987, 1992, 1997, 2002 and 2012 Supplemental Bond Resolutions, the Authority has established the following cash and investment accounts for deposit, in the priority of the order listed, of all revenue received by the Authority.

<u>Accounts</u>	<u>Amount</u>	<u>Use for Which Restricted</u>
Revenue	All revenues received by the Authority, except those designated for construction.	Authorized operating expenses and, as of the first day of each month, transfers to the various accounts described below.
Construction	Proceeds of debt issued Construction grants-in-aid and contributed capital.	Construction costs of the system.
Bond Service	Amount needed to equal the bond service requirements as defined by the resolution.	Principal and interest on the bonds.
Bond Reserve	Amount needed to equal the greatest amount of debt service due in any year.	Transfers to meet minimum levels required in the bond service. Any excess may be transferred as described by the resolution.
Renewal and Replacement	Amount needed to increase the balance to equal the renewal and replacement requirements as defined by the resolution.	Transfers to meet minimum levels required in the bond service, or major repairs, renewals and extensions of the system.
General	Any extent.	Authorized expenditures and transfers to the various funds.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

No provision for income taxes has been made as the Authority is exempt from Federal and State income taxes.

Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Position

Equity is classified as net position and displayed in three components:

- 1) Invested in Capital Assets - consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any debt that are attributable to the acquisition, construction, or improvement of those assets.
- 2) Restricted - when constraints placed on net position are either a) externally imposed by creditors (such as the bond resolution), grantors, or laws or regulations of other governments or b) imposed by law.
- 3) Unrestricted - any other net position that does not meet the definition of "restricted" or "invested in capital assets."

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Property, plant and equipment is stated at cost which includes construction costs and other expenditures related to construction. System construction costs are charged to construction in progress until such time as given segments of the system are completed and put into operation. Depreciation is determined on a straight-line basis, for all plant and equipment. Depreciation is provided for over the following estimated useful lives:

Buildings	40 years
Sewer System	75 years
Water System	75 years
Other Improvements	5-10 years
Machinery and Equipment	5-10 years
Computer Equipment	5-10 years
Furniture and Fixtures	5-10 years
Vehicles	5-10 years

During 2020-21 the following changes occurred in the fixed assets of the Authority:

	<u>Balance</u> <u>June 30, 2020</u>	<u>Net</u> <u>Additions</u>	<u>Disposals</u>	<u>Balance</u> <u>June 30, 2020</u>
Capital Assets:				
Property, Plant and Equipment	<u>\$65,199,698</u>	<u>\$3,613,781</u>	<u>\$ -0-</u>	<u>\$68,813,479</u>

Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond June 30, 2021 are recorded as prepaid expenses.

Rules and Regulations

Rate schedules for user fees, connection fees, lateral installations, and other matters under the jurisdiction of the Authority are established in accordance with the Rules and Regulations of the Authority as adopted and amended.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting and Financial Reporting for Pensions

The Governmental Accounting Standards Board (GASB) approved Statement No. 68 Accounting and financial reporting for pensions administered by state and local government employers. This Statement improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This Statement replaces the requirement of Statement No. 27, *Accounting for Pension by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. This statement is effective for periods beginning after June 15, 2014.

GASB approved Statement 71, Pension Transition for Contributions made Subsequent to the Measurement Date-an amendment to GASB No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or non-employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Statement 68 requires a state or local government employer (or non-employer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or non-employer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or non-employer contributing entity that arise from other types of events.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting and Financial Reporting for Pensions (Continued)

At transition to Statement 68, if it is not practical for an employer or non-employer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported. Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or non-employer contributing entity's beginning net position and expense in the initial period of implementation.

This Statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts.

Under GAAP, Authorities are required to recognize the pension liability in the Statements of Net Position and the Statements of Revenues, Expenses, Changes in Fund Net Position and in the Notes to the Financial Statements in accordance with GASB 68. The liability required to be displayed by GASB 68 is displayed as a separate line item in the Non-Current Liabilities area of the Statements of Net Position.

Accounting and Financial Reporting for Post-employment Benefits Other Than Pensions (OPEB)

The Governmental Accounting Standards Board (GASB) has issued Statement No. 75, *"Accounting and Financial Reporting for Post-employment Benefits Other Than Pensions"*. This statement establishes standards for measuring and recognizing liabilities, deferred outflows and inflows of resources, and expenses for post-employment benefits other than pensions. It also requires the State of New Jersey to calculate and allocate to each participating member, for note disclosure purposes only, the OPEB net liability of New Jersey Health Benefits Local Government Retiree Plan (the Plan). The statement does not alter the amount of funds that must be budgeted for OPEB payment under existing state law.

Under GAAP, Authorities are required to recognize the OPEB liability in the Statements of Net Position (balance sheets), the Statements of Revenues, Expenses, Changes in Net Position and in the Notes to the Financial Statements in accordance with GASB 75. The liability required to be displayed by GASB 75 is displayed as a separate line item in the Non-Current Liabilities area of the Statements of Net Position.

(3) BUDGETARY PROCEDURES

The Authority follows these procedures in establishing the Operating Fund budget:

The annual budget for each fiscal year of the Authority is introduced by resolution passed by not less than a majority of the governing body. Copies are submitted to the Director of the Division of Local Government Services Director (Director) for approval prior to its adoption.

The budget must comply with the terms and provisions of loan agreements and is to be in such form and detail as to items of revenue, expenses and other contents as required by law or by rules and regulations of the Local Finance Board.

No authority budget can be finally adopted until the Director has approved the budget.

Public hearings are conducted to obtain citizen comments on the proposed budget.

Operating expense appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

The level at which expenditures cannot exceed the budget is at the total budget level.

The budget may be increased after adoption when an item of revenue has been made available after the adoption date.

	<u>Unrestricted</u>	<u>Restricted</u>
June 30, 2021:		
Cash and Cash Equivalents	<u>\$7,619,179</u>	<u>\$ 287,902</u>
June 30, 2020:		
Cash and Cash Equivalents	<u>\$7,539,777</u>	<u>\$ 281,788</u>

Cash on deposit is partially insured by the Federal Deposit Insurance Corporation in the amount of \$250,000 in each bank depository. Balances above the federal depository insurance amount are insured by the State of New Jersey Governmental Unit Deposit Protection Act (NJGUDPA).

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the deposits may not be returned. The Authority does not have a specific deposit policy for custodial credit risk other than those policies that adhere to the requirements of statute. As of June 30, 2021, based upon the coverage provided by FDIC and NJGUDPA, no amount of the bank balance was exposed to custodial credit risk nor is it exposed to foreign currency risk for its deposits and investments.

At year-end the carrying amount of the Authority's deposits was \$7,907,081 and the bank balance amount was \$7,936,522. Of this amount \$482,141 was covered by Federal depository insurance, \$2,903,726 was guaranteed by the United States Government, and \$4,470,089 was covered by a collateral pool maintained by the banks as required by New Jersey statutes. An amount of \$80,567 was on deposit in the name of various developers for escrow and is either insured by federal depository insurance or uninsured depending on the deposits of the individual developer in the escrow depository. The net increase in the fair value of cash equivalents that would otherwise qualify as investments except for the maturity or the withdrawal provisions of their deposit at June 30, 2021 was \$-0-.

(5) INVESTMENTS

The Authority's investment policy principally permits the investing of funds in the following types of investments:

Bonds, debentures, notes, or other evidence of indebtedness issued by any agency or instrumentality of the United States or by any corporation chartered by the United States to the extent that such obligations are guaranteed by the United States or by another such agency and Defeasance Securities.

(6) DEBT OBLIGATIONS

A. New Jersey Environmental Infrastructure Program

The Authority has twelve loans with the New Jersey Environmental Infrastructure Program to fund water and sewer system improvements. The first four loans were issued during fiscal year ended June 30, 2010, the second four during fiscal year ended June 30, 2018 and the third four during fiscal year ended June 30, 2021. The balance as of June 30, 2021 for the Trust and Fund Loans was \$6,888,965 and \$4,148,579, respectively. The Trust and Fund Loans are payable semi-annually until fiscal year ending 2051 with interest from 0.00% to 5.0% for the Trust Loan and no interest for the Fund Loan. Any funds which are not borrowed will result in a decrease to the funds due back to the New Jersey Environmental Infrastructure Program. The aggregate long-term debt service requirements during the next fiscal years and thereafter (subject to change if all available funds are not borrowed) are as follows:

The service agreement providing for treatment and disposal of sewerage flow from the Little Egg Harbor Municipal Utilities Authority's collection system by facilities of the Ocean County Utilities Authority ("O.C.U.A.") requires the O.C.U.A. to establish its annual charge in January each year, payable quarterly, based on an estimated sewerage discharge. In addition, a deficiency notification, an adjustment of the prior year's estimated to actual discharge, is included in the first quarter billing.

The O.C.U.A. annual charge for 2020 was \$4,039 per million gallons.

The annual charge established by O.C.U.A. for 2021 remained unchanged from 2020's amount. The 2022 charge is being held flat at \$4,039 per million gallons.

#### (8) PENSION PLANS

Substantially all eligible employees participate in the Public Employees' Retirement System (PERS) or the Defined Contribution Retirement System (DCRP), which have been established by state statute and are administered by the New Jersey Division of Pensions and Benefits. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System. This report may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey, 08625 or is available online at [www.nj.gov/treasury/pensions/annrpts.shtml](http://www.nj.gov/treasury/pensions/annrpts.shtml).

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955, under the provisions of N.J.S.A. 43:15A, to provide retirement, death, disability and medical benefits to certain qualified members. The PERS is a cost-sharing multiple employer plan. Membership is mandatory for substantially, all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or local jurisdiction's pension fund.

Defined Contribution Retirement Program (DCRP) - The Defined Contribution Retirement Program (DCRP) was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, and was expanded under the provisions of Chapter 89, P.L. 2009. The DCRP provides eligible employees and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance coverage and disability coverage.

#### Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43:3B. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service. Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving ten years of service credit, in which case, benefits would begin the first day of the month after the member attains normal retirement age.

Newly elected or appointed officials that have an existing DCRP account or are a member of another State-administered retirement system are immediately vested in the DCRP. For newly elected or appointed officials that do not qualify for immediate vesting in the DCRP, employee and employer contributions are held during the initial year of membership. Upon commencing the second year of DCRP membership, the member is fully vested. However, if a member is not eligible to continue in the DCRP for a second year of membership, the member may apply for a refund of the employee contributions

from the DCRP, while the employer contributions will revert back to the employer. Employees are required to contribute 5.5% of their base salary and employers contribute 3.0%.

##### Funding Policy

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group life insurance benefits is based on actual claims paid. For fiscal year 2019, the State's pension contribution was less than the actuarial determined amount. The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. During 2019, PERS provides for employee contributions of 7.50% of employees' base salary.

The Authority's share of pension, which is based upon the annual billings received from the state, amounted to \$206,083 for 2021, \$163,214 for 2020 and \$182,685 for 2019.

Certain Authority employees are also covered by the Federal Insurance Contribution Act.

##### Accounting and Financial Reporting for Pensions – GASB #68

##### Public Employees Retirement System (PERS)

At June 30, 2020, the State reported a net pension liability of \$3,072,056.00 for the Authority's proportionate share of the total net pension liability. The total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019, which was rolled forward to June 30, 2020. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the Authority's proportion was 0.0188384371 percent, which was an increase of 0.0020590511 percent from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the State recognized an actuarially determined pension expense of \$155,465.00 for the Township's proportionate share of the total pension expense. The pension expense recognized in the Authority's financial statements based on the April 1, 2020 billing was \$163,214.00.

Actuarial Assumptions

The total pension liability for the June 30, 2020 measurement date was determined by an actuarial valuation as of July 1, 2019, which rolled forward to June 30, 2020. These actuarial valuations used the following assumptions:

	<u>June 30, 2020</u>
Inflation	
Price	2.75%
Wage	3.25%
Salary Increases	
Through 2026	2.00-6.00%
Thereafter	3.00-7.00%
	Based on
	Years of Service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at both June 30, 2020 and June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Assets Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Equity	27.00%	7.71%
Non-U.S. Developed Market Equity	13.50%	8.57%

Cash Equivalents	4.00%	0.50%
U.S. Treasury's	5.00%	1.94%
Risk Mitigation Strategies	3.00%	3.40%

Discount Rate

The discount rate used to measure the total pension liability was 7.00% and 6.28% as of June 30, 2020 and June 30, 2019, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the non-employer contributing entity will be based on 78% of the actuarially determined

contributions for the State employer and 100% of actuarially determined contributions for the local employers. #### (9) RISK MANAGEMENT

The Authority participates in the New Jersey Utility Authorities Joint Insurance Fund, established effective August 21, 1991 pursuant to N.J.S.A. 40A:10-36. The law permits utility authorities to join together to form a joint insurance fund. The Authority is exposed to various risks of loss related to torts, theft of, damage to property, destruction of assets, automobile accidents and workers' compensation. The Authority is insured against the perils or liability of the said risks and the Authority may derive benefit from the insurance policy to the extent determined by the fund.

#### (10) ACCOUNTING AND FINANCIAL REPORTING FOR POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS – GASB 75

The Governmental Accounting Standards Board (GASB) has issued Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". This statement establishes standards for measuring and recognizing liabilities, deferred outflows and inflows of resources, and expenses for postemployment benefits other than pensions. OPEB obligations are non-pension benefits that the authority has contractually or otherwise agreed to provide employees once they have retired and, in most instances, will be for retirement health, prescription and dental insurance coverage.

Under current New Jersey budget and financial reporting requirements, the authority is not required to fund any amounts in excess of their current costs on a pay-as-you-go basis or to accrue funds, create a trust or issue debt to finance their other post-employment benefit liability.

##### Plan Description and Benefits Provided

The State Health Benefit Local Government Retired Employees Plan (the Plan) is a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. The Plan meets the definition of an equivalent arrangement as defined in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions*; therefore, assets are accumulated to pay associated benefits.

The Plan provides medical and prescription drug coverage to retirees and their covered dependents of the employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48

allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees.

Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations' agreement.

In accordance with Chapter 330, P.L. 1997, which is codified in N.J.S.A 52: 14-17.32i, the State provides medical and prescription coverage to local police officers and firefighters, who retire with 25 years of service or on a disability from an employer who does not provide postretirement medical coverage. Local employers were required to file a resolution with the Division in order for their employees to qualify for State-paid retiree health benefits coverage under Chapter 330.

The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Contributions

The Authority's contributions to SHBP for the years ended June 30, 2021, 2020 and 2019 were \$106,703, \$97,855, and \$101,579 respectively, which equaled the required contributions for each year.

Total Net OPEB Liability

At June 30, 2020, the Plan reported a liability of \$5,511,405 for the Authority's proportionate share of the collective net OPEB liability. The total net OPEB liability measured as of June 30, 2020 was determined by an actuarial valuation as of June 30, 2019, which was rolled forward to June 30, 2020.

The Authority's proportion of the net OPEB liability was based on the ratio of the plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2019 through June 30, 2020.

At June 30, 2020, the Authority's proportion was 0.0307100000 percent, which was an increase of 0.0029900000 percent from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the State reported net OPEB benefit of \$35,988. This net OPEB benefit was based on the OPEB plans June 30, 2020 measurement date. At June 30, 2020, the State reported deferred outflows of resources and deferred inflows of resources related to net OPEB from the following sources:

	<u>Deferred Outflow of Resources</u>	<u>Deferred Inflow of Resources</u>
Differences between expected and actual experience	\$145,166	\$1,026,326
Change of Assumptions	824,333	1,225,651
Net difference between projected and actual earnings on OPEB plan investments	3,500	
Changes in proportion	637,237	833,289
Authority contributions subsequent to the measurement date	<u>106,703</u>	<u>                    </u>
	<u>\$1,716,939</u>	<u>\$3,085,266</u>

The \$106,703 reported as deferred outflows of resources related to OPEB resulting from Authority contributions subsequent to the measurement date (i.e. for the year ending June 30, 2020, the plan measurement date is June 30, 2019) will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021.

PFRS	Pub-2010 Safety classification headcount weighted mortality with fully generational mortality improvement projections from the central year using scale MP-2020

\* Salary increases are based on years of service within the respective plan.

Actuarial assumptions used in the July 1, 2019 valuation were based on the results of the PFRS and PERS experience studies prepared for July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend is initially 5.6% and decreases to a 4.5% long-term trend rate after seven years. For post-65 medical benefits, the actual fully insured Medicare Advantage trend rates for fiscal year 2021 through 2022 are reflected. The rates used for 2023 and 2024 are 21.83% and 18.53%, respectively, trending to 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.0% and decreases to a 4.5% long-term trend rate after seven years.

Discount Rate

The discount rate for June 30, 2020 and 2019 was 2.21% and 3.50%, respectively. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2021

(11) NET POSITION UNRESTRICTED

Net Position unrestricted consists of two component parts:

Designated – amounts designed by resolution of the governing body for specific purposes. Although these amounts are designated for a particular purpose, they are still considered to be unrestricted because at the discretion of the Authority, these amounts could be designated for other purposes or cancelled to undesignated altogether.

No amounts were designated by the Board of Commissioners at June 30, 2021.

Undesignated – not designated for any particular purpose.

(12) AMOUNTS REQUIRED BY BOND RESOLUTIONS

The following cash accounts are required by the Bond Resolutions of 1977, 1987, 1992, 1997, 2002 and 2012. The net cash excesses, or deficiencies shown, if any, are represented by inter-account entries at June 30, 2021 and will be adjusted by Trustee transfer to unrestricted cash in 2020-21 if necessary:

Current Debt Service	\$ 337,281.49
Cash on Hand	44,577.89
Deficit	<u>\$ 292,703.60</u>
 Future Debt	 \$ 507,454.39

Excess	<u>\$ 1,927.90</u>

(13) PREPAID CONNECTION FEES

The Authority previously required all new developments to pre-pay water connection fees as a condition of final approval. Old subdivisions requiring water also had to pre-pay the water connection fee prior to issuance of a building permit. While not required to do so, some customers have elected to pre-pay their sewer connection fees. These fees relate to properties for which a building permit has been issued but no connection to the system has yet occurred.

	<u>Water</u>	<u>Sewer</u>	<u>Total</u>
Balance June 30, 2021	<u>\$33,880</u>	<u>\$8,250</u>	<u>\$42,130</u>

(14) DEFERRED COMPENSATION

The Authority's Deferred Compensation Program (the "Plan") is offered to all eligible Authority employees. The program was created in accordance with Section 457 of the Internal Revenue Code (the "Code"). The program is offered by the Authority through a program administrator.

The Small Business Job Protection Act of 1996 amended Section 457 of the Code to require that assets and income under the Plan be held in trust, in annuity contracts or in one or more custodial accounts for the exclusive benefit of Plan participants and their beneficiaries.

In accordance with this amendment, all amounts now or hereafter held under any and all annuity contracts issued in connection with the Plan shall be treated (and such contracts shall be construed) in a manner consistent with the requirements of Section 457(g) and the terms of the Plan, as amended.

(15) COMMITMENTS AND CONTINGENCIES

(16) PENDING LITIGATION

It is the opinion of Authority officials that there is no litigation threatened or pending that would materially affect the financial position of the Authority or adversely affect the Authority to levy, collect and enforce the collection of user charges or other revenue for the payment of its bonds or other obligations.

(17) SUBSEQUENT EVENTS

The Authority has evaluated subsequent events occurring after the financial statement date through June 30, 2022 which is the date the financial statements were available to be issued. Based on this evaluation, the Authority has determined that there are no subsequent events which require disclosure in the financial statements.

Change in benefit terms

Change in assumptions

The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (3.50%) to the current measurement date (2.21%), resulting in a change in the discount rate from 6.28% to 7.00%. This change in the discount rate is considered to be a change in actuarial assumptions under GASB No. 68.

**INDEPENDENT AUDITOR'S REPORT ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Members of the Board of Commissioners  
Little Egg Harbor Municipal Utilities Authority  
823 Radio Road  
Little Egg Harbor, New Jersey 08087

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Little Egg Harbor Municipal Utilities Authority as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Little Egg Harbor Municipal Utilities Authority's financial statements, and have issued our report thereon dated June 30, 2022.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the Little Egg Harbor Municipal Utilities Authority's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Little Egg Harbor Municipal Utilities Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Little Egg Harbor Municipal Utilities Authority's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the Little Egg Harbor Municipal Utilities Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO MAJOR STATE FINANCIAL ASSISTANCE PROGRAMS AND INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY NEW JERSEY OMB CIRCULAR 15-08**

Members of the Board of Commissioners  
Little Egg Harbor Municipal Utilities Authority  
823 Radio Road  
Little Egg Harbor, New Jersey 08087

### ***Report on Compliance for Each Major State Program***

We have audited the Little Egg Harbor Municipal Utilities Authority's compliance with the types of compliance requirements described in the New Jersey *OMB State Grant Compliance Supplement* that could have a direct and material effect on each of the Little Egg Harbor Municipal Utilities Authority's major state programs for the year ended June 30, 2021. The Authority's major and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### **Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the Little Egg Harbor Municipal Utilities Authority's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and New Jersey OMB Circular 15-08. Those standards, and New Jersey OMB Circular 15-08 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Little Egg Harbor Municipal Utilities Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Little Egg Harbor Municipal Utilities Authority's compliance.

## SUPLEE, CLOONEY & COMPANY

### ***Opinion on Each Major State Program***

In our opinion, the Little Egg Harbor Municipal Utilities Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2021.

### ***Report on Internal Control Over Compliance***

Management of the Little Egg Harbor Municipal Utilities Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Little Egg Harbor Municipal Utilities Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Little Egg Harbor Municipal Utilities Authority's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.
