**RE: Little Egg Harbor Municipal Utilities Authority
Emergency Replacement of Filter Media at Well No.8 Treatment Facility.
RVE File: 1517-M-059**

Dear Mr. Sutton:

Our office was made aware of the failure of the filter media at Authority's Existing Well No.8 Treatment Facility. Due to the emergent nature of this failure impacting the ability of the Authority to reliably meet the water demands of the Authority's customers, it is the recommendation of this office that the situation be declared an emergency for immediate repair. The Little Egg Harbor MUA contracted Municipal Maintenance to replace the filter media which is to be procured by the Authority at a cost not to exceed \$180,000.00. This emergency declaration was due to potential adverse effects to health, safety, and welfare of the residents of Little Egg Harbor Township.

If you require any further assistance, please do not hesitate to contact Trace Dittenhofer at our Toms River Office.

Sincerely,

REMINGTON & VERNICK ENGINEERS
